

Art Bag 2018

For the main bag, trace the pattern on one side of your prepared canvas. Make sure to mark the center of the pattern.

Then flip the pattern to complete the other side of the bag. Do the same thing for the other half of the bag.

Alternatively, you can retrace the pattern on paper first using the instructions above so that you'll have a whole pattern piece! No flipping needed.

Do the same for the bag lining.
